

For Immediate Release

Harbor Plaza Hotels & Resorts Receives Platinum Level Award for Cyber Security Staff Awareness Recognition Scheme

Harbor Plaza Hotels & Resorts is honored to receive the inaugural Platinum Level Award from the Cyber Security Staff Awareness Recognition Program. The awards ceremony was held at Cyberport on November 27, 2024.

This program, co-organized by the Hong Kong Internet Registration Corporation (HKIRC) and Information Systems Audit and Control Association (ISACA) Hong Kong Chapter, recognizes companies for their commitment to enhancing staffs' cyber security awareness over the past year. Harbour Plaza Hotels & Resorts has fully complied with the program's requirements which are fundamental elements of current cyber security topics. These are: provision of regular cyber security training, phishing testing exercises, implementation of relevant policies and guidelines as well as on-going reporting channel and communication messages to staff.

In an era where cyber threats are increasingly sophisticated, internal risks are often overlooked. Vulnerabilities in cyber-attack caused by staffs, due to a lack of security knowledge, can significantly impact an organization's operation and the customer's personal data. "We recognize the critical role of staffs' cyber security awareness because it is the first line of defense. Harbour Plaza will not only continuously implement the program's requirements but will also keep pace with latest cyber security trends to strengthen the defense level." said Ms. P.C. Koh, Director of Harbor Plaza Hotel Group.
